Examiner's first report on patent application no. 2003277154
by InterDigital Technology Corporation

Last proposed amendment no.

Dear Madam/Sir,

I am replying to the request for examination. I have based this report on the pamphlet. I have examined the application and I believe that there are lawful grounds of objection to the application. These grounds of objection are:

1. There is no Notice of Entitlement on file. You will need to file one because an application without a Notice of Entitlement cannot be accepted.
2. The invention defined in Claims 1-33 is not novel (and does not involve an inventive step) when compared with the following prior art document that discloses all the essential features of the invention claimed:

*US 5903618A (MIYAKE et al), 11 May 1999 – refer to column 2, line 4 to column 3, line 11; column 8, line 57 to column 12, line 54 and figures

*cited in the EP Supplementary Search Report

You have 21 months from the date of this report to overcome all my objection(s) otherwise your application will lapse. You will need to pay a monthly fee for any response you file after 12 months from the date of the first report.

You will also need to pay any annual continuation fees that apply. These will normally be first due five years from the filing date. Please note however that earlier commencement dates apply for divisional applications. Information about fees may be obtained by phoning 1300 651010.

Yours faithfully,
